

IRCCS-IRTG-GTR Joint Symposium

Nagoya University and University of Münster

<Venue> Lecture hall, Noyori Materials Science Laboratory, Nagoya University

Monday, November 28

- 9:00-9:10 Opening remarks (Prof. Shigehiro Yamaguchi)
- 9:10-9:40 Prof. Bart Jan Ravoo
“Molecular Design of Azo-Photoswitches for Supramolecular Self-Assembly”
- 9:40-10:05 Prof. Takashi Ooi
“Designer Organic Ions for Catalysis”
- 10:05-10:35 Prof. Olga Garcia Moncheno
“Combining Anion-Binding and Photocatalysis”
- 10:35-10:55 Break
- 10:55-11:20 Prof. Ryotaro Matsuda
“Molecular Trapping and Photoreactions in the Nanospace of Porous Metal Complexes”
- 11:20-11:50 Dr. Line Næsborg
“Micellar Effects in Photocatalysis”
- 11:50-12:15 Prof. Hiroshi Abe
“Design of super messenger RNA by chemical synthesis”
- 12:15-12:45 Dr. Anna Junker
“Imaging of purinergic targets in cancer and inflammation”
- 12:45-13:45 Joint lunch
- 13:50-15:30 Poster Presentation (2F, Chemistry Lounge)
- 15:30-17:00 One-by-One discussion - Münster members with Nagoya members
- 18:00-19:30 Reception (Hotel Mielparque Nagoya)
